

HANWELL MANTEL WITH AURORA GAS FIRE

The Aurora Gas Fire provides up to 4kW of heat and is shown with the Hanwell mantel in Agean limestone. It fits perfectly into the Oxford Hi-lighted cast iron panel giving a modern look to this traditional fireplace.

GAS FIRES

Nothing creates an inviting atmosphere in your home like the real flames of a gas fire. Whether you want to achieve a contemporary look, or a more traditional feel to your home, the right gas fire will add warmth and character.
