

THE IMAGE

This electric fireplace requires no wall recess as everything is concealed within the surround. It provides 2kW of thermostatically controlled heat or ambient air for the summer. The striking fuel effect is reflected in the mirror to create an illusion of depth, making even the smallest interior feel spacious.

ELECTRIC FIRES

Whether you are looking for traditionally styled electric fires or highly contemporary designs, The Gas Shop can help you. Once you have chosen your fire, relax in the knowledge that you have invested in a stunning centrepiece to your home, which requires little maintenance and is highly efficient.
